

## **Covid 19 Safety Measures**

The safety and comfort of our passengers is important to us. The following procedures are implemented between the carriage of different passengers even if the vehicle has not been used for several days prior.

- Driver's hands sanitised upon arrival & wearing of a face mask to cover nose and mouth.
- Sanitised areas including but not limited to exterior door handles (Driver opens when possible), interior door handle, arm rest and grip, electric window buttons, entire length of seat belts, buckle, casing and release button, heating control and vents.
- Cabin sprayed with odourless disinfectant.
- If there are any other passenger requirements feel free to ask your driver.
